Foods, Schools, and General Storage Solutions

Upright Gables The Upright Gables are the backbone of the Wire Weld system. Their depth can vary from 12" to 24" and height can go up to 12'.

Their versatile, wire-mesh construction accommodates our wire shelves, as well as melamine, wood finish, and glass shelves. And they are supported on our reinforcing bars.

In addition to the shelves, all of our merchandising accessories can be installed and moved on 2" increments front and back, as well as up and down.

Whether you're using the uprights for perimeter shelving or a floor fixture, no special tools are required for their installation. Plus, their lightweight design enables you to easily move sections or remerchandise departments.

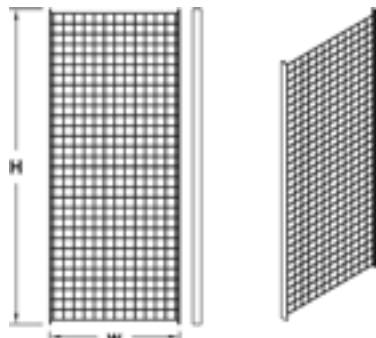

Both upright types are designed to be used either as stand-alone units, back-to-back, in continuous runs, or as endcaps. Best of all, the mesh design allows for optimal visibility from all sides—while enabling you to merchandise on the sides with hooks and baskets.

remarkably simple

Weight Capacity Our upright gables have passed static-load tests of up to 2000 pounds per elevation (tested using equally-distributed loads within the unit).

Full Service Wire Weld is a full-service supplier offering store planning, logistics, installation supervision, custom and stock fixtures, and CAD drawings with 3D illustrations.

Support Our products are designed to be easy to assemble and provide years of maintenance-free performance. If you ever need assistance with Wire Weld systems, just give us a call.

Custom Orders Available Gables can also be ordered in custom heights and widths that aren't included in the standard sizes above. Complete mounting foot plates and seismic bracing are available to meet your specific regional building codes.

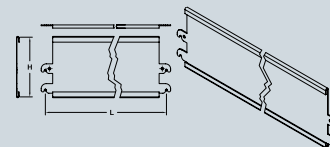

Accessories Give your wire shelving a contemporary, upscale appearance with our line of accessories. And like our shelving components, they're easy to assemble: valance band

- kick base • side base • dividers • casters (and bases) • masonite doors/door kits
- plastic end caps • gable bracket set • faux lipshef • foot plate
